VERSION – 03/10/08

Amendment to the Agreement
Between
Dialog Telecommunications, Inc.
and
BellSouth Telecommunications, Inc.
d/b/a AT&T Alabama, AT&T Georgia,
AT&T Kentucky, AT&T Louisiana, AT&T Mississippi,
AT&T North Carolina, AT&T South Carolina and
AT&T Tennessee
Dated March 8, 2006

Pursuant to this Amendment, (the "Amendment"), Dialog Telecommunications, Inc. (Dialog), and BellSouth Telecommunications, Inc. d/b/a AT&T Alabama, AT&T Georgia, AT&T Kentucky, AT&T Louisiana, AT&T Mississippi, AT&T North Carolina, AT&T South Carolina and AT&T Tennessee ("AT&T"), hereinafter referred to collectively as the "Parties," hereby agree to amend that certain Interconnection Agreement between the Parties dated March 8, 2006 (Agreement) to be effective thirty (30) calendar days after the date of the last signature executing the Amendment (Effective Date).

WHEREAS, AT&T and Dialog entered into the Agreement on March 8, 2006, and;

WHEREAS, the Parties agree to amend the Agreement to include Loop Rearrangements language and rates, and;

NOW THEREFORE, in consideration of the mutual provisions contained herein and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties hereby covenant and agree as follows:

- 1. Section 2.1.8.1 of Attachment 2, Network Elements and Other Services, is deleted and replaced with the following language:
 - 2.1.8.1 For voice grade Loop orders (or orders for Loops intended to provide voice grade services, Dialog shall have dial-tone available for that Loop forty-eight (48) hours prior to the Loop order completion due date. This applies to all conversions from one provider to another provider as well as Service Rearrangements as set forth in Section 2.1.13. Where Dialog dial-tone is not available on the conversion date the Loop will not be cut over and Loop order will be returned to Dialog for rescheduling.
- 2. The following language shall be incorporated into the Agreement as new Section 2.1.13 in Attachment 2, Network Elements and Other Services:
 - 2.1.13 Unbundled Loop (DS1 and below) Service Rearrangements
 - 2.1.13.1 The Unbundled Loop Service Rearrangement processes will allow changes to be made to a working Loop facility assignment within the same end-user serving

- wire center. Service Rearrangements will result in service outages to the customer during the time the Loop is being moved.
- 2.1.13.2 An Unbundled Loop Service Rearrangement connecting facility change (CFC) allows Dialog to change its installed Loop from one working facility assignment to another facility assignment. CFC includes Connecting Facility Assignment (CFA) and Cable ID & Pair changes within same collocation arrangement or from collocation to collocation. CFA changes are allowed within the same multiplexer or from one multiplexer to another multiplexer. For a CFC, the Loop class of service, Loop type and the customer must remain the same.
- 2.1.13.3 An Unbundled Loop Service Rearrangement connecting facility move (CFM) allows Dialog to move the Loop facility assignment from a collocation arrangement to a multiplexer or from a multiplexer to a collocation arrangement. CFMs require a change to the Loop basic class of service. The Loop type and the customer must remain the same.
- 2.1.13.4 For Unbundled Loop Service Rearrangements, AT&T shall charge the applicable "Service Rearrangement change in Loop facility" rate found in Exhibit A.
- 2.1.13.5 The Unbundled Loop Service Rearrangement process and requirements will be handled in accordance with the guidelines set forth in the Ordering Guidelines and CLEC Information Packages as referenced in Sections 1.13.1 and 1.13.2 above.
- 3. Rate Exhibit A of Attachment 2 is amended to include the Loop Rearrangement rates reflected in the attached Amendment Exhibit 1, incorporated herein by this reference and thereby a part of the Amendment.
- 4. The Parties agree that <u>AT&T-9STATE</u> shall be defined as the states of Alabama, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, South Carolina and Tennessee.
- 5. All of the other provisions of the Agreement, dated March 8, 2006, shall remain in full force and effect.
- Either or both of the Parties are authorized to submit this Amendment to the respective state regulatory authorities for approval subject to Section 252(e) of the Federal Telecommunications Act of 1996.
- 7. In entering into this Amendment, neither Party waives, and each Party expressly reserves, any rights, remedies or arguments it may have at law or under the intervening law or regulatory change provisions in the underlying Agreement (including intervening law rights asserted by either Party via written notice predating this Amendment) with respect to any orders, decisions, legislation or proceedings and any remands thereof, which the Parties have not yet fully incorporated into this Agreement or which may be the subject of further review.
